## Dream Come True Rose

### Dream Come True Rose

*Rosa 'Dream Come True'*

Height: 6 feet

Spread: 3 feet

Sunlight: 

Hardiness Zone: 6b

Group/Class: Hybrid Tea Rose

### Description:

Stunning color on a healthy vigorous bush; flawless double flowers make an impact as they open a clear yellow with ravishing crimson-red edges and white petals; sturdy long stems support huge blooms and deep green foliage; highly disease resistant as well

### Ornamental Features

The Dream Come True Rose features showy lightly-scented yellow flowers with white overtones and crimson edges at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall colour. The fruits are showy red hips displayed in late fall.

### Landscape Attributes

The Dream Come True Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

The Dream Come True Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

## Dream Come True Rose

---

### Planting & Growing

The Dream Come True Rose will grow to be about 6 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

This plant is not reliably hardy in our region, and certain restrictions may apply; contact the store for more information.
