Globe Peashrub

Globe Peashrub

Caragana frutex 'Globosa'

Height: 6 feet

Spread: 5 feet

Sunlight: ☉ ●

Hardiness Zone: 2a

Other Names: Russian Caragana

Description:

An excellent compact and consistently rounded shrub for low hedges or garden detail; extremely hardy and adaptable to very dry sites, doesn't sucker, takes pruning very well

Ornamental Features

Globe Peashrub is primarily valued in the landscape or garden for its ornamental globe-shaped form. It has yellow pea-like flowers hanging below the branches in mid spring. It has dark green deciduous foliage. The round pinnately compound leaves turn buttery yellow in fall.

Landscape Attributes

Globe Peashrub is a multi-stemmed deciduous shrub with a more or less rounded form. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This is a relatively low maintenance shrub, and should not require much pruning, except when necessary, such as to remove dieback. It has no significant negative characteristics.

Globe Peashrub is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Globe Peashrub will grow to be about 6 feet tall at maturity, with a spread of 5 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a slow rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It prefers dry to average moisture levels with very well-drained soil, and will often die in standing water. It is considered to be drought-tolerant, and thus makes an ideal choice for xeriscaping or the moisture-conserving landscape. It is not particular as to soil type or pH, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.
